

## angus muir & alexandra heaney

The Auckland-based architects Out of the Dark tell us about their installation, *Field*, which is in Sydney as part of Art & About.

**Q: WHAT MADE YOU WANT TO EXHIBIT IN ART & ABOUT?**

**A:** We have a love of human interaction with space. Art & About is the perfect opportunity to explore that interaction. We wanted to make a sculpture that was accessible to all. People from all walks of life can enjoy it, interact with it and become part of the piece itself.

**Q: DESCRIBE THE ARTWORK.**

**A:** Our work is partly illusion. *Field* constantly changes the viewer's perspective, and the view itself within the sculpture is forever shifting. As you walk through, you will find yourself questioning what is really there and what is an illusion. It asks us to reflect on ourselves, those around us, our past,

and what is just around the corner.

**Q: WHAT'S SOMETHING YOU'D LOVE TO CREATE?**

**A:** An installation in the sky. While we don't think it is physically possible right now, we are pretty sure we can conquer it some time in the future.

**Q: WHERE CAN READERS SEE YOUR WORK IN NZ?**

**A:** At Art in the Dark in Auckland in November – a fantastic lighting art festival run in one of Auckland's oldest parks. It showcases amazing work from local and international artists. ■

**Art & About is on from 20 September to 20 October. You can see *Field* in Sydney's Hyde Park. Go to [artandabout.com.au](http://artandabout.com.au) to find out more, or to [outofthedark.co.nz](http://outofthedark.co.nz) to see more of Angus and Alexandra's work.**
